- Three female, alleged burglars were caught this month and an investigation is pending.

- 4th of July festivities went well with no major incidents.

- Just a reminder for citizens that like to target shoot in unincorporated Multnomah County: you are responsible for each bullet fired. I have neighbor complaints about bullets that have struck windows and roof tops from apparently very long distances due to the sloping trajectory of the bullets that have made impact. A bullet can still hit a house (or person) even if the shooter can't necessarily see through the trees.

-Another reminder: DO NOT SWIM in marinas, around boat docks with electrical lines or even house boats with running electricity. There are incidents of "Electric Shock Drownings" that occur every year when a swimmer encounters electrically charged water. A 9-year old boy was killed in the Multnomah Channel in 1999 while swimming with his life-jacket at a marina.
