12-408133	12/20/2012	13:55	Thur	VANDALISM-UNSPECIFIED	52028	BONNEVILLE DAM

We have all been saddened by the school and mall shootings this past month. Our deputies have all been through "active shooter" training in the past and many "soft target" locations have been scouted-out by our personnel. We are currently working with the Corbett School principal and the Job Corps to go over security protocol and response plans.

A truck driver at the I84 viewpoint recently had his arm slashed by a knife-wielding man that had stopped to ask him for money. The driver was ok but the suspect fled in a dark SUV, possibly a Ford Explorer.

Photo on the left: this is a photo of the front door of a house that was kicked-in during a burglary. As you can see, despite the locked door knob and deadbolt, a simple "swift" kick can split the door jam on a standard door; only about 1-inch of wood actually "locks" a typical door. You can visit a locksmith or "Google: "how to reinforce a door" for more information on securing your doors.
