The following are excerpts from an email sent out by the Sheriff. In regard to Corbett, the Corbett Community Resource Officer position is tentatively listed to be cut for the 2020 budget which begins July 1st.

Chair Kafoury has asked all County Departments and Offices to submit their budget with a 3% general fund constraint. What this means for MCSO, particularly as a lean agency in a tight fiscal year, is that we must be very thoughtful in our approach to resource management and requests. MCSO is not supportive of a 3% reduction - there are many challenges facing public safety, but we recognize there are no easy choices in balancing a County-wide budget.

Reductions: Enforcement Community Resource Officers for Corbett and Sauvie Island, Close Street Supervision Unit, Gresham Temporary Holding, and Human Resources' Finance Tech Position (vacant)

The Budget Office will make the County-wide submitted offers publicly available at noon today. At that time, the information will be accessible here:

<https://multco.us/budget/fy-2020-budget>. If it is helpful, the Sheriff's Office Department Number is 60 "60-Sheriff."

Please remember we are early on in this budget process and there are many conversations to be had prior to final cuts being made.
