**Portable Repeater**

**New portable Corbett radio repeater-** Our Citizen Patrol volunteers currently use a commercial-grade radio repeater that allows them to use walkie-talkie style radios over longer distances. Without a repeater, radio users would be limited to shorter "line of sight" distances. If their main repeater becomes inoperable for any reason, their communications would be hampered. To alleviate this, a portable repeater was home-built at a total cost of only \$145. This repeater can also be deployed anywhere our current repeater doesn't have coverage; even out-of-state. The Citizen Patrol Unit will assist Corbett Fire in a training exercise this winter to enhance interagency readiness and mutual aid operations. This will help the community in the event of a large-scale disaster.

Four mail thefts occurred on 11/29 to mailboxes with locking doors. Please be aware that this is a time of year when thieves are very active. Stores, homes, parked cars and even our mailboxes are all potential targets. If you're expecting anything of value in the mail, try to have it picked up as quickly as possible.

Be aware of suspicious cars or persons lurking along the roadways or persons knocking on your door with some kind of story or sales request. Sales people should be carrying authentic company ID and even a sales permit from the county. This time of year, companies such as Amazon hire extra delivery drivers that may be driving their own personal vehicles. It's ok to challenge unknown persons (if you feel safe) and ask them for their ID or a supervisor's contact number. After extensive questioning, persons with fake stories are usually "quick to scatter". Obtain a vehicle description and license plate info if possible and immediately call either 911 or the non-emergency# 503-823-3333. It's best to call right away instead of waiting. This allows the responding deputy a better chance of locating the suspicious person(s).

Please don't hesitate to call. Many citizens think deputies are "too busy". If deputies are busy and the person gets away, your information is still logged and could be very useful in identifying potential suspects.
